How to Export OvidSP bibliographic records to Mendeley

1. The option for exporting OvidSP bibliographic records into Mendeley is enabled via RIS format.

2. Please, contact support@ovid.com if you’d like to have your Ovid account customised.

3. From OvidSP results page, select those records you’d like to export to Mendeley.

4. Click Export:

5. From the pop-up Windows displayed choose the option Export to Medeley (RIS):

6. You’ll then can select the fields and content you’d like to include in the export process.
