How to set up eTOC alerts for Journals@Ovid

Creating eTOC alerts for Ovid Journals is easy and straightforward. Follow these steps:

1. Navigate to My Workspace at the top of the Ovid page:

2. You’re prompted to enter your Personal Account access details; you don’t have to use your Personal Account, just click on My eTocs at the top of the page:

3. Alternatively, you can use this URL to set up eTOC alerts, rather than logging into Ovid: http://pt.wkhealth.com/pt/re/ovidspealerts

4. Enter the email address you want the alerts to be sent to:

5. In the box above the list of journals for which eTOC alerts are active, you can also select the format for the alerts (HTML or TXT). Click Update to make your changes live:
