Joanna Briggs Institute EBP Resources on Ovid

- Content that will help your institution implement evidence-based practice
- Systematic reviews, recommended practices, evidence summaries, and more
- Evidence to inform clinical practice—derived from the best available data around the world and developed by JBI’s Global Collaborating Centers
- Summarized research in a format that is easy to locate, understand and distribute
- Increased health profession empowerment and job satisfaction
- Content that can be used right at the point of care to make a difference in the life of the patient

Healthcare professionals and institutions strive to provide the highest quality care to their patients based on the latest evidence from research, healthcare professional expertise, and patient preference.

Help them achieve this goal with resources from the Joanna Briggs Institute (JBI)—one of the world’s leading evidence-based practice (EBP) organizations—available on Ovid!

JBI’s evidence-based practice model is considered a benchmark in the healthcare industry—encouraging healthcare professionals to implement an effective evidence-based practice program to provide the best possible patient care.

Why JBI EBP Resources on Ovid?

- Help your health care professionals deliver the best care with simple and effective global evidence content
- Annually updated, evidence-rich content from the leading evidence-based practice organization - only available on Ovid
